

MFL Department: Spanish Curriculum Overview

MFL Curriculum Overview

The MFL curriculum contributes to the rich, ambitious and inclusive school curriculum. All students, including those with SEND, learn a foreign language. The aim of the MFL curriculum is to develop understanding of the target language in a variety of contexts, including literature of the target language and knowledge of the vocabulary, grammar and phonics of the language. As part of the language learning skills, it includes translation (English into target language and Target Language into English), the ability to communicate effectively in the target language and an awareness and understanding of countries and communities where the target language is spoken.

In Year 7 all students study two languages (Spanish and French), from Year 8 they choose one language which they continue with as part of the EBacc at KS4. Students develop transferable skills relevant to further study and the world of work. The MFL curriculum is a 5-year sequenced curriculum plan with interleaved vocabulary and grammar to allow continuous recall. Each stage of the curriculum builds on prior skills and knowledge allowing a smooth transition to the next stage or further study at A Level.

Students are assessed in four equally weighted skills following the exam board specifications and the national curriculum. Regardless of academic ability, students take a listening, reading, speaking and writing GCSE exam at the end of the linear course (Year 11). Speaking exams are conducted by the teacher but all exams are externally assessed. Exams in all four skills are tiered, students must sit exams in all four skills at the same tier. These skills are also assessed at AS and A Level following the assessment objectives of the AQA Specification. Some students, supported by the school, also take a GCSE or A Level exam in a community language which they study outside the school curriculum.

At Bentley Wood we are passionate about the benefits that learning a language can bring. We strongly believe in languages as a skill for life and something students should enjoy and find rewarding. Enrichment activities further support the wider aspects of language learning and development of life skills in students.
