Accommodating word processors in examinations .....	8

## Introduction

This policy on the use of word processors in examinations and assessments is reviewed and updated annually, on the publication of updated JCQ regulations and guidance contained in the publications [Access Arrangements and Reasonable Adjustments](#) and [Instructions for conducting examinations](#).

References to 'AA' relate to JCQ *Access Arrangements and Reasonable Adjustments 2023-24* and ICE to JCQ *Instructions for conducting examinations 2023-24*

The use of a word processor in exams and assessments is an available access arrangement/reasonable adjustment.

(AA 4.2.1)

The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties. The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

(AA 4.2.2)

Although access arrangements/adjustments are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.3)

Candidates may not require the same access arrangements/reasonable adjustments in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. ALS leads/SENCoS must consider the need for access arrangements/reasonable adjustments on a subject-by-subject basis.

(AA 4.2.1)

The Additional Learning Support lead/SENCo must ensure that the proposed access arrangement/reasonable adjustment does not unfairly disadvantage or advantage a candidate.

(AA 4.2.7)

The candidate must have had appropriate opportunities to practice using the access arrangement(s)/reasonable adjustment(s) before his/her first examination.

## Purpose of the policy

This policy details how Bentley Wood High School complies with AA chapter 4 (Managing the needs of candidates and principles for centres), section 5.8 (Word processor) and ICE (sections 14.20-27) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

## **The criteria Bentley Wood High School uses to award and allocate word processors for examinations and assessments:**

The centre will

- ▶ allocate the use of a word processor to a candidate with the spelling and grammar check facility/predictive text disabled (switched off) where it is their normal way of working within the centre (AA 5.8.1)
- ▶ award the use of a word processor to a candidate where appropriate to their needs

For example, a candidate with:

- a learning difficulty which has a substantial and long-term adverse effect on their ability to write legibly
  - a medical condition
  - a physical disability
  - a sensory impairment
  - planning and organisational problems when writing by hand
  - poor handwriting (AA 5.8.4)
- 
- ▶ whether or not a student's needs are sufficient will be assessed and decided by the SENDCo, liaising with the Exams Officer, the SLG responsible for exams, and the appropriate Head of Year
  - ▶ The use of a word processor for candidates is only granted if it reflects the support given to the candidate as their 'normal way of working', which is defined as support (AA 4.2.5):
    - in the classroom (where appropriate); or
    - working in small groups for reading and/or writing; or
    - literacy support lessons; or
    - literacy intervention strategies; and/or
    - in internal school tests/examinations
    - mock examinations
  - ▶ only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
  - ▶ not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
  - ▶ consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
  - ▶ process access arrangements/reasonable adjustments at the start of the course, or as soon as practicable having firmly established a picture of need and normal way of working, ensuring arrangements are always approved before an examination or assessment (AA 4.2.4)
  - ▶ provide the use of word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not:

- ▶ simply grant the use of a word processor to a candidate because he/she now wants to type rather than write in exams or can work faster on a keyboard, or because he/she uses a laptop at home. (AA 5.8.4)

## Exceptions

Additionally the use of a word processor would be considered for a candidate would be:

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- where the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

## The use of a word processor

Bentley Wood High School complies with AA chapter 5 '*Access arrangements available*' as follows:

(AA 5.8.1)

- ▶ Provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off)
- ▶ Only grants the use of a word processor to a candidate where it is their normal way of working (see 4.2.5 above) within the centre
- ▶ Only grants the use of a word processor to a candidate if it is appropriate to their needs (for example, the quality of language significantly improves as a result of using a word processor due to problems with planning and organisation when writing by hand)  
(The above also extends to the use of electronic brailers and tablets)

(AA 5.8.2)

- ▶ Provides access to word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification

(AA 5.8.3)

- ▶ Allows candidates to use a word processor in an examination to type certain questions, i.e. those requiring extended writing, and handwrite shorter answers
- ▶ Are also aware that examinations which have a significant amount of writing, as well as those that place a greater demand on the need to organise thought and plan extended answers, are those where candidates will frequently need to type. Examinations which require more simplistic answers are often easier to handwrite within the answer booklet. The candidate avoids the difficulty of visually tracking between the question paper and screen

(AA 5.8.4)

- ▶ In all cases, ensures that a word processor cover sheet (Form 4) is completed and included with each candidate's typed script (according to the instructions issued by the individual awarding body)
- ▶ Does not simply grant the use of a word processor to a candidate because he/she prefers to type rather than write or can work faster on a keyboard, or because he/she uses a laptop at home

## Word processors and their programmes

Bentley Wood High School complies with ICE 14.20 -14.25 '*Word processors (computers, laptops and tablets)*' instructions by ensuring:

- ▶ word processors are used as a type-writer, not as a database, although standard formatting software is acceptable
- ▶ word processors have been cleared of any previously stored data, as must any portable storage medium used
- ▶ an unauthorised memory stick is not permitted for use by a candidate
- ▶ where required, candidates are provided with a memory stick, which has been cleared of any previously stored data, by a nominated member of centre staff
- ▶ word processors are in good working order at the time of the examination
- ▶ word processors are accommodated in such a way that other candidates are not disturbed and cannot read the screen
- ▶ where a candidate using a word processor is accommodated separately, a separate invigilator is used
- ▶ word processors are either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- ▶ documents are printed after the examination is over
- ▶ candidates are present to verify that the work printed is their own
- ▶ word processed scripts are inserted in/attached to any answer booklet which contains some of the answers (and according to instructions issued by the individual awarding body)
- ▶ word processors are used to produce scripts under secure conditions, and if they are not then the centre is aware that they may be refused by the awarding body
- ▶ word processors are not used to perform skills which are being assessed
- ▶ word processors are not connected to an intranet or any other means of communication.
- ▶ candidates are not given access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc when using a word processor
- ▶ graphic packages or computer aided design software is not included on a word processor unless permission has been given to use these
- ▶ predictive text software or an automatic spelling and grammar check is disabled unless the candidate has been permitted a scribe or is using voice recognition technology (the script must have a completed scribe cover sheet included), or the awarding body's specification permits the use of automatic spell checking
- ▶ voice recognition technology is not included on word processors unless the candidate has permission to use a scribe or relevant software
- ▶ word processors are not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe

## Laptops and tablets

Bentley Wood High School further complies with ICE 14.20-14.25 instructions by ensuring:

- ▶ tablets used during examinations/assessments are designed to run for a long period of time once fully charged and are 'free-standing'
- ▶ the battery capacity of all laptops and/or tablets is checked before the candidate's examination(s) with the battery sufficiently charged for the entire duration of the examination
- ▶ candidates with fully charged laptops or tablets are given the opportunity to be seated within the main examination hall without the need for separate invigilation and power points
- ▶ candidates are reminded that their centre number, candidate number and the unit/component code must appear on each page as a header or footer
- ▶ candidates using Notepad or Wordpad software (which do not allow for the insertion of a header or footer) are instructed to handwrite their details as a header or footer once they have finished the examination and printed off their typed script; candidates are also supervised to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way
- ▶ candidates are instructed to appropriately number each page
- ▶ candidates are instructed to use a minimum 12pt font and double spacing
  - ▶ invigilators remind candidates to save their work at regular intervals to ensure work is not lost (or where possible, an IT technician will set up 'auto save' on each laptop /tablet to ensure that if there is a complication or technical issue, the candidate's work is not lost) (ICE 14.24)
- ▶ candidates are present at the end of the examination when their script is printed off so they can verify that the work printed is their own

## Portable storage medium (ICE 14.25)

The centre will ensure that any portable storage medium (e.g. a memory stick) used:

- is provided by the centre
- is cleared of any previously stored data

## Printing the script after the exam has ended (ICE 14.25)

The centre will ensure:

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is his or their own
- a word-processed script is attached to any answer booklet which contains some of the answers
- ▶ if a candidate omits to insert the required header or footer, he/she is instructed to handwrite the details as a header or footer; the candidate is supervised throughout this process to ensure that he/she is solely performing this task and not re-reading their answers or amending their work in any way (ICE 14.22)

The centre will also ensure that where an awarding body may require a word processor cover sheet, this is included with the candidate's typed script (and according to the relevant awarding body's instructions). (ICE 14.26)

The centre may retain electronic copies of word processed scripts as the electronic copy of a word processed script may be accepted by an awarding body where the printed copy has been lost. However, the centre would need to demonstrate to the awarding body that the file has been kept securely. The head of centre would be required to confirm this in writing to the awarding body. (ICE 14.27)

### **Accommodating word processors in examinations**

Candidates using word processors (including laptops or tablets) are internally accommodated in the following manner:

- ▶ located in the Access Arrangements Room for the relevant exam sitting (usually our Conference Room)

Invigilation arrangements relating to the use of word processors include the following:

- ▶ invigilator updated about additional requirements in the Access Room

Other arrangements relating to the use of word processors include:

- ▶ all scripts to be securely saved, printed and initialled by candidate at conclusion of each exam
